Gratitude

A grandiose shout-out to Ryan Herrman & Barbara Paier for orchestrating what is anticipated to be another special and memorable Science Day at VVE. Science Day takes a full year to plan and volunteers will spend over 4 hours setting up experiments this evening, and many hours after the event cleaning up. Volunteers are busy organizing two presentations and 4 different experiments at each grade level for 500 children! Thank you to all our volunteers for their time before, during and after Science Day. In addition, thank you to our Booster Club for funding all the supplies and presentations.
