

**Parenting Outside of the Box Children at Laura's Library**  
**Wednesday, May 3rd 10:30am - 12:00pm**

*This month's topic: **Bringing Camp Structure Home***

For decades, summer camp has provided kids with the opportunity to explore, grow and be happy in an environment created to promote positive outcomes. Join President of Kidventure, Mike McDonell as he shares 23 years of summer camp experience and how to bring a little of that positive outcome to the home.

Mike will offer six tools practiced at Kidventure and illustrate how parents can apply those tools in their own home so everyone has a better opportunity at being a happy camper!

*About the Series:*

Whether your child is diagnosed with special needs, or their particular challenges have yet to be identified, or if they are spirited, struggle with reading or writing, have sensory issues, have learning, emotional or behavioral differences, or fall into the quirky kid category, we'll explore the means to help you help your child here in the Westlake area with monthly guest speakers and parent discussions. This series is targeted toward parents of children throughout Eanes ISD whether in public, private, or home schooling and is open to everyone.
